Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

unavailable by any other phone. I feel that the charges I currently pay for airtime are high enough considering I am only using it on a very limited basis. I felt that I could afford this phone as I would only pay for the minutes that I am going to use, not have unlimited minutes. If the rates continue to go up, I will not even be able to afford this security. Please, reconsider this fee and do not charge the low-volume users this extra fee!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
